

The Mechanical Installation / Construction division of TCM Solutions are currently seeking an individual to fill the position of:

**Mechanical Plumber**

Applicants must have a minimum of three years experience after completing their apprenticeship and be currently registered in all aspects of plumbing. The successful candidate will participate in all aspects of the Installation and Construction division both commercial and industrial, and must be able to deal with both clients and the public.

A well presented and professional attitude is required, Training and Development is both sought after and encouraged. For this reason any additional training is looked upon favourably on candidate applications.

This position will suit an individual who is looking to further their career and experience in the plumbing / building industry, and is self motivated to take on all challenges.

To apply please email your CV to [hrmanager@tcmsolutions.com.au](mailto:hrmanager@tcmsolutions.com.au)
